

Function and Outcomes Research for Comparative Effectiveness in Total Joint Replacement (FORCE-TJR) and Wellbe collected readiness data from 100+ hospital representatives affected by the new Comprehensive Care for Joint Replacement (CJR) Model.

*Overall, on a scale from 1 to 5, how prepared is your hospital orthopedics department for the new CMS value-based bundled payment (CJR) rule:*

- 9%** 5 - Fully prepared
- 35%** 4 - Almost fully prepared
- 36%** 3 - Somewhat prepared
- 9%** 2 - A little prepared
- 11%** 1 - Not prepared at all

*What is your goal date to have your CJR program fully in place:*

- 44%** April 1, 2016
- 44%** Sometime between April 2 and December 30, 2016
- 12%** December 31, 2016 or later

*In preparation for CJR, which of these investments are you making?  
(select all that apply)*

- 75%** Hiring staff to manage bundle patients (navigator/coordinator)
- 19%** Purchase new functional outcome software to track PROs
- 16%** Purchase new care management software to manage patients
- 14%** Purchase new financial software to track costs

*Do you have access to complete outcomes data on your total joint program to help you compete under CJR?*

- 46%** No
- 54%** Yes
