Client Legal Operations Services

McGuireWoods appreciates the increased focus being placed on the operations of legal departments. Building out these operational capabilities is a growing priority, as legal teams support the dynamic needs of the businesses in which they operate. As a value-add to select clients, McGuireWoods, through its experienced resources, can provide customized legal operations consulting services to help you strategize and address your highest priorities. In most cases, these services are provided at no additional cost to you, and could include:

Strategy development	Organization structure/alignment
Law firm management/convergence	Reporting/dashboards/data analytics
Process/efficiency improvements	Technology strategy
Capacity planning (staffing)	Change management
Cost reduction/containment methodology	Vendor risk management techniques
Onboarding (new hire) best practices
