

PRIVATE EQUITY HIGHLIGHTS

HISTORY & EXPERTISE

Longstanding commitment to private equity. Over 158 private equity lawyers across 21 offices worldwide. Extensive experience in key industries including healthcare, life sciences, finance, food & beverage and energy.

360 DEAL COVERAGE

We leverage a diverse range of skills and knowledge to address every angle of a client's transaction. Clients executing transactions in today's economic landscape rely on McGuireWoods to navigate the transaction, including regulatory obstacles, and manage closing and post-closing risk. We regularly draw upon the services of the firm's tax and employee benefits, labor and employment, environmental, real estate, securities and antitrust lawyers, as dictated by a transaction, to ensure our clients have 360-degree deal coverage.

CLIENT SERVICE

No matter where clients may be in the investment cycle, we are there, from fund formation to financings to regulatory to full-service and exit. Clients count on us to understand their business goals and assemble talented teams to help them achieve their objectives. We put clients' needs front and center.

DRIVING INTRODUCTIONS

We add value in our ability to introduce companies/funds to potential investment opportunities. In addition to driving introductions, we have institutionalized an investment banking mindset to systematically identify research and develop relationships with companies interested in raising capital or engaging in a sale transaction, with the sole goal of connecting them with investors in our network.
